SUMMARY

Data Analyst pursuing a BS in Artificial Intelligence, with hands-on experience in Python, SQL, and Business Intelligence tools including Power BI and Excel. Comfortable building dashboards, cleaning and modeling data, and turning raw datasets into clear, actionable insight. Seeking a Data Analyst role to apply these skills and grow within a data-driven team.

EDUCATION

Dawood University of Engineering and Technology

Oct 2024 – Jun 2028

Bachelor of Science in Artificial Intelligence (BSAI) — Karachi, Pakistan

- Relevant Coursework: Programming Fundamentals, Object Oriented Programming, Data Structures, Database Systems, Programming for AI, Linear Algebra

PECHS Education Foundation Government Science Degree College

Aug 2022 – Jun 2024

Intermediate, Computer Science — Karachi, Pakistan

TECHNICAL SKILLS

BI & Visualization: Power BI, Microsoft Excel (Pivot Tables, Data Modeling, Advanced Formulas)

Languages & Query: Python, SQL (Competitive Level)

Data Analysis Libraries: Pandas, NumPy, Matplotlib, Seaborn

Databases: MySQL, SQL Server, Oracle

Tools & Platforms: Jupyter Notebook, Google Colab, VS Code

PROJECTS

Netflix Data Intelligence Dashboard

2026

Power BI, Power Query, DAX

- Designed and built an interactive Power BI dashboard analyzing 9,000+ Netflix titles, tracking release trends, content maturity distribution, and geographic reach across 66 countries.
- Used Power Query to clean and parse unstructured text fields, separating mixed runtime and season-count data into proper sortable numeric columns, while building a dynamic profile explorer with bookmarked navigation.

Retail Sales Performance Dashboard

2026

Power BI, Power Query, Kaggle

- Built a 3-page interactive Power BI dashboard analyzing 10,000+ retail transactions, modeling KPIs including total revenue (1.55M) and items sold (66K).
- Cleaned data using Power Query and implemented dynamic slicers, identifying top revenue-generating categories and highest-value customer segments.

Store Sales Dashboard

2026

Microsoft Excel, Pivot Tables, Data Modeling

- Developed a fully interactive 3-page retail analytics dashboard in Excel, covering executive overview, product/category deep-dive, and customer behavior analysis.
- Linked dynamic slicers and timeline sliders across multiple pivot tables spanning 3 branches and multiple cities, aggregating multi-column transaction data into a cohesive data model with custom app-like navigation.

Adventure Works Interactive Portal

2026

Power BI, SQL Server, Power Query, DAX

- Restored the Microsoft AdventureWorks database from a .bak backup file in SQL Server, building data cleaning and transformation pipelines in Power Query.
- Designed a dynamic, click-to-navigate landing page and synchronized analytical pages (overview, products, customers, sales), powered by optimized DAX measures and bookmark-based filter resets.

CERTIFICATIONS

- SQL (Basic) — HackerRank, Feb 2026 (Credential ID: B5E33F14657)
- Mastering Python, Pandas, NumPy for Absolute Beginners — Udemy, Dec 2024
- Crash Course on Python (Coursera/Google, 2023); Software Engineering (NED University, 2022)

ACHIEVEMENTS & HIGHLIGHTS

- DevDay Query Quest 2026 – 6th Place: Ranked 6th at DevDay Query Quest 2026, competing against top university students in advanced SQL problem-solving under time constraints.
- ProCom Query Quest 2026 – 9th Place: Ranked 9th in a competitive SQL challenge at ProCom, one of Pakistan's largest university-level technology competitions.
